The 2011 Canadian Association of Paediatric Health Centres (CAPHC) Annual Conference invites abstract submissions for consideration as poster presentation within the conference program. The Poster Session at the CAPHC Conference has grown into one of the premier events at our annual meeting, providing an ideal venue to showcase and view innovative research, exciting programs and unique strategies taking place in the area of child and youth health.

This year, we are requesting posters under the following categories:

- **Clinical Research**
- **Innovation in Clinical Practice**
- **Family Centered Care**
- **System Innovation**

With both attended and unattended poster sessions there is lots of time for networking and partnership development.

Last year's prize package from CIHR, McMaster Child Health Research Institute and CAPHC has created a fantastic and friendly competition around the poster session. This year's event will see the poster competition expanded and open to all posters on display at the event. We will NOT be selecting finalists based on abstracts.

Please check the CAPHC website for full submission instructions, acceptance criteria, the preliminary conference programs and other information at: [www.conference.caphc.org](http://www.conference.caphc.org).
